COMMENTS FROM THE TOWN MANAGER'S OFFICE

The unpaid 1965 tax list that was prepared for the year ending Dec. 31, 1965, shows an unpaid balance of \$19,616.23. That represents 7.4% of the total commitment so far paid total as of Dec. 31, 1965 was \$265%. The 1965 is 13% better than the 1964, paid total as of Dec. 31, 1964. Usually the tax payments almost stop after December 31 of a given year but the payments of 1965 taxes has been pretty steady the first week and a half of this year.

There is another well drilled who is supposed to start drilling at West Bethel this week. I stated a couple of weeks ago that the original drill stopped because sand was blown out of the hole and stuck to the drilling equipment. He found out that air pressure caused the sand to blow out of the hole. He was using air to force the drilled material out of the hole. The conditions at the bottom of the hole were such that a pocket was formed and the air pressure built up. When the pressure was great enough, it forced the sand out of the hole and the sand went about forty feet above ground level. It was so cold that the damp material froze to the most of the drill rig.

It might seem that the problem at West Bethel has been over-emphasized. It has been a great inconvenience to the twenty-two families on the water system. It has also been a great problem for the selectmen in trying to find a suitable solution.

NEW COUNTY BUILDING COMPLETED — COST \$78,446.80

Final payment on the contractor's bill for construction costs for the new county building housing the District Court and offices for the newly created Oxford County Economic Development Corporation, was made by County Treasurer Stuart F. Martin on January 10.

The total cost of the project amounted to \$78,446.80. An amount of \$1,100 was paid for the demolition of the old stable and grading and leveling costs were \$2,779.11. The Ken Kennard Construction Co. of South Paris did all of the work. No architect was hired to design the building and supervise and inspect materials and the project was not put out for bidding. It was let on a 10% plus cost basis. Construction on

the building was started in June and completed in December. It is constructed without a basement. The walls are of concrete block construction with brick veneer on three sides. The heating is provided by a forced hot air system. Interior finish consists of painted concrete blocks on the outside walls and veneer paneling for partitions.

Original estimates placed the cost of the building at around \$50,000.

The Faculty Club of SAD 44 met Monday evening at Andover.

OCEDC SPENDS \$32,000 IN SEVEN MONTHS

The Oxford County Economic Development Commission managed to spend more than \$32,000 of its 12 months appropriation of \$35,000 during its seven months' existence, County Treasurer Stuart Martin stated Monday.

The report was part of his year end book balancing to determine the extent of a 1965 count down.

Mr. Martin had said a week ago he anticipated running in the red for 1965 but added he would not know how much until all accounts had been balanced and final bills tabulated.

A final reckoning showed the OCEDC in its seven months of existence, spent \$32,936.77. The sum of \$2,063.23 was appropriated for 12 months.

During the last June 1 to 31 months period that time Mr. Martin at about three for Alfred P. Wallen and an office secretary drew a total of \$19,410 in salaries. Expense accounts, not including hotel and airline tickets totaled \$2,040. Mr. Martin said.

Other \$2,000 plus expenditures listed by the treasurer included \$2,740 to the Bethel Chamber of Commerce for furniture, \$2,211 to Greater Bethel of Lewiston for hall pass pens and the close used for promotional purposes, and \$2,163 to a Portland advertising agency, J. C. McKenna Co.

Payments of \$1,000 or more were listed to Twin City Printing of Lewiston (\$1,500.00) for booklets and \$1,000.00 in telephone bills.

The majority of the OCEDC's total purchases of \$10,000 were made of companies in the Lewiston area, Mr. Martin said.

DAWN BLAZE LEVELS W. BETHEL HOUSE

Five persons were routed from their one-and-a-half story home on the Flat Road, West Bethel, Wednesday morning, when a blaze apparently erupted near a heating unit Mr. and Mrs. Chester Herrick, their two children, and his brother, Albert, were forced from the dwelling in sub-zero temperatures.

Bethel Fire Chief Roderick S. McMillan said his department was called at 6 a. m. but by the time the two tanks trucks and a pump reached the scene the building had burned to the ground.

Ruins of Herrick home in West Bethel after early morning fire on Wednesday.

The Herricks wrapped their two children, a girl, 3, and a boy, six months, in blankets and all escaped with only the clothing they were wearing.

A barn attached to the house was also leveled by the quick spreading flames which were fanned by a strong wind.

Those wanting to assist the Herrick family are asked to leave contributions at Head's Store, West Bethel.

-Mrs. Ralph Kimball, Cor.-

Mr. and Mrs. Leonard Kimball left Sunday on their way to their winter home in Florida.

David Solway was absent from his work two days last week due to illness.

Mr. and Mrs. Ralph Kimball, Mrs. Herbert Adams and Mrs. David Solway were in Mechanic Falls Wednesday to attend the funeral services for Mrs. Marjorie Martin.

all registered hospitals which was nationally circulated by the American Hospital Association and indicated that 98 per cent of those responding picked Blue Cross for this important role."

"Maine Blue Cross has had valuable experience working jointly with the U. S. Government in the past. Blue Cross has administered since December 7, 1965, the Program of Hospital Benefits for Dependents of Uniformed Services by contract with the Department of Defense," he continued.

"It has also been involved with the administration of the Federal Employees Program since 1960 and as a result of this valuable experience this added assignment will be handled much easier," according to Neilson.

"In anticipation of this announcement, we have prepared our staff to accept the added responsibility without jeopardizing our present programs of Blue Cross-Blue Shield, with some 370,000 members," Neilson said.

"We feel we can do this with very few administrative problems since we are presently serving approximately 37,000 subscribers in the 65 and over age group. It will be necessary however to add some clerical personnel to our working staff," he pointed out.

Neilson said that "It is our intention to work out any problems that may exist between now and the effective date, July 1, 1966, so that the transition to Medicare for those eligible can be handled smoothly and effectively."

MAINE GASOLINE SALES UP 7.1% ACCORDING TO PETROLEUM SPOKESMAN

Maine gasoline sales jumped by 7.1 per cent in November, according to the latest figures released by the Maine Petroleum Association.

SPA Chairman James E. Murphy, in a report prepared for an Association executive committee meeting at the Lafayette Hotel on Monday said that this year's 11 month figures reflected an increase of 24 percent over 1965.

"That should be for the October 1965 and 1966 gasoline sales. The 1965 figures are preliminary and subject to change," Murphy said.

If these figures are correct, Murphy said, it would be the highest since 1960 when the increase was 20 percent.

Maine Girls Back from National 4-H Club Congress in Chicago

Three young women have returned home from a week's stay in Chicago where they attended the 49th National 4-H Club Congress. They won the all-expense trip because they were judged best in their particular 4-H Club programs.

Named as delegates by the Cooperative Extension Service, the three participated in educational and recreational activities while in Chicago. In addition to attending numerous meetings and seminars, they spent time touring museums, sightseeing, hearing a concert, and attending dinners.

The girls and their projects are Diana Jacobs, 18, of Canby, home economics; Eleanor Kent, 17, of Clinton, leadership; and Judith Berry, 18, of Farmington, clothing.

Miss Jacobs, daughter of Mr. and Mrs. Frederick Jacobs, is a freshman at Burdett College. Determination is the keyword in Miss Jacobs' 4-H career.

"In 1964, her club disbanded," said Mrs. Leydia Dennis, extension agent, "but Diana continued her home economics project as a miscellaneous member and has now organized a club of her own."

A sophomore at the University of Maine, Miss Kent is the daughter of Mr. and Mrs. Charles Kent.

"The attitude and drive of this 4-H girl has set a splendid example for all young 4-H'ers," said Nancy Pitkin, assistant leader.

"Still more important is the

tenacity and drive of this 4-H girl has set a splendid example for all young 4-H'ers," said Nancy Pitkin, assistant leader.

Neilson again urged that center members 65 and over who will be affected by Medicare keep what ever health coverage they have until the program goes into effect July 1, 1966.

He cautioned older citizens to check their health coverage plans and to make sure they are protected without unnecessary payment.

Highway security without any increase in the state's Transit tax rate is under study.

55-Eleven said that increased sales of gasoline are an indication of more travel and more business for other segments of the economy.

time Ellie found to coach her club members in the projects they undertook. That the club has consistently been a blue ribbon club is testimony enough of Ellie's leadership abilities," she added.

Miss Berry is the daughter of Mr. and Mrs. Maynard Berry. Attending the congress because of her clothing project, Judith admits she didn't even like clothing when she first entered 4-H in 1957.

"As a matter of fact, I loathed it," she said. "I didn't have any patience when things didn't go just right and would toss my sewing in a corner. When I had finally mastered the basic sewing techniques and could make more complicated articles, I was so pleased and proud."

The girls' sponsors while at the congress were Miss Jacobs, Montgomery Ward, Miss Kent, The Sears Roebuck Foundation, and Miss Berry, Coats & Clark Inc.

WOODSTOCK QUINTET EDGES ANDOVER IN HOOP TUGGLE

A pair of free throws by Bruce Thornton in the closing seconds of the game gave Woodstock High a 62-64 basketball victory over Andover Tuesday night. The boys had a pair of free throws after the final buzzer but failed to make either one.

Andover led 16-12 and 31-26 at the first two period breaks and the clubs were locked at 49 at the end of the third period. Thornton wound up with 16 points and teammates Stuart McIntosh (15), Ray Seames (14), and Neil MacKillop also hit double figures. Howie Perkins (20), Ray Hutchins (14), and Bill Simmons (12) carried the scoring load for Andover.

Woodstock ranged 47-16 in the girls' game to sweep the record.

David Hunt, son of Mr. and Mrs. Frank Hunt Jr., celebrated his eighth birthday on Saturday, January 8, with a party at his home. Those present were Douglass Brooks, Tim Padner, Sam Zaman, Bobby Brown, David Brown, Dean Brown, Barry Bodwell, Barry Carver, Vernon Davis, Tommy Clerke, Kevin Chay, or Trane and David Hunt.

SCENIC COMMITTEE BACKING LEGISLATION ON JUNKYARDS AND BILLBOARDS

Legislation requiring junkyard and outdoor advertising laws has the support of the Keep Maine Scenic Committee, an advisory group to the State Park and Recreation Commission.

The Keep Maine Scenic Committee read and accepted. Dues collected. It was voted on that dues were to be paid even if absent.

There was no old business or new business. A safety meeting was appointed Jan. 18, 1966. Each

member was to bring a box to make a first aid kit. A game chairman was appointed by Diane Seams. The person appointed was Ellen Cole. Vice President checked records after meeting. Club Reporter, Janice Merrill

mitted has campaigned against automobile blight on Maine highways since 1962.

The special session of the Legislature opening January 17 will consider bills designed to bring Maine laws into conformity with the federal Highway Beautification Act of 1965. If such controls are not adopted, states face penalties which could jeopardize up to 20 per cent of their federal highway allotment.

Under the new proposals, junkyards and automobile graveyards would be banned from view within 1,000 feet on interstate and primary highway systems.

Federal funds would be available to the State Highway Commission to finance 75 percent of the cost of relocating junkyards which could not be screened from view on interstate and primary highways. On other Maine roads,

SNOW TWISTERS TO MEET AT LEGION ROOMS, JAN. 18

There will be a meeting of the Bethel Snow Twisters, Snow Kart Club, January 18, at the Legion Rooms at 7:30 p. m. All members are urged to attend. Plans for another outing will be discussed.

The current 600 feet prohibition would continue.

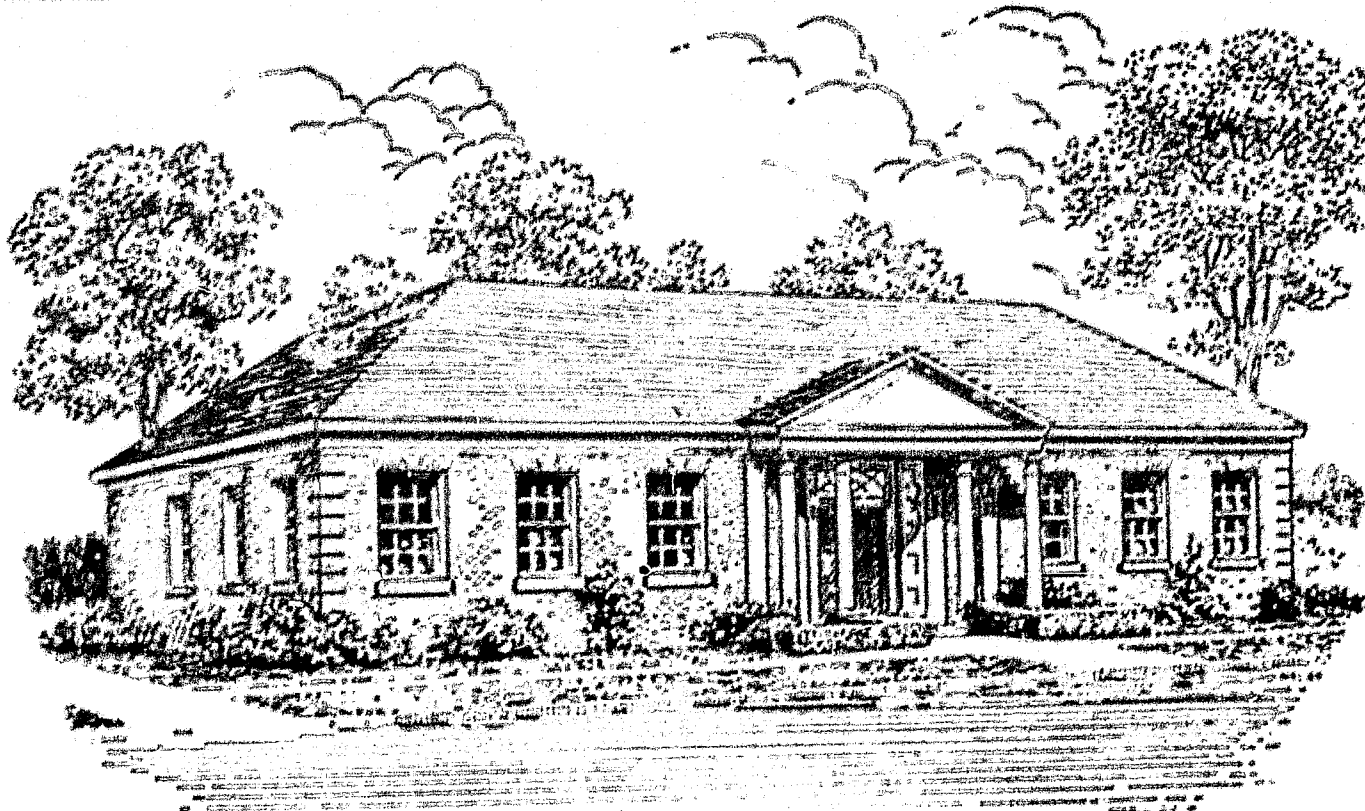

The outdoor advertising legislation endorsed by the committee will extend Highway Commission jurisdiction over billboards and other devices to 1,700 miles of the primary as well as the interstate system in Maine.

CARD OF THANKS

I wish to express my very sincere appreciation to all of my Bethel friends for the many cards and notes which were received during my recent illness.

— Mrs. R. M. Fleet, Cor. —
A correction, it is Mr. and Mrs. Buster Williamson that are at his mother's place instead of Dianne. Dianne Williamson is staying at the Sunday River Inn and attending Gould Academy.

Mr. and Mrs. Raymond Foster returned home Thursday from Bethpage, N. Y.

Our Saturday snow storm was 4 1/2 inches before the wind took a hand. From then on no measuring it. At one time last night (Saturday) it blew so hard the snow completely hid our neighbor's light only a short distance across the road.

George Morin was at the doctor's Thursday for a check of his leg.

DUNN IS CREW MEMBER OF "HERCULES" TRANSPORT

Aviation Electrician's Mate First Class Thomas H. Dunn, U. S. N., husband of Patricia Kittredge Dunn, serving with Air Development Squadron Six, the Navy's Antarctic Air Squadron, is a crewmember of a Navy "Hercules" transport that is making regular flights to Byrd Station in Antarctica during the current "Operation Deep Freeze" season.

The station, named after Admiral Richard E. Byrd, a pioneer in Antarctic exploration, is located 600 miles inland from McMurdo Station, headquarters for Deep Freeze operations.

Built completely underground

five thousand feet above sea level, the station has a yearly average temperature of 10 degrees.

The only method of resupply of food, fuel and equipment for the station is by aircraft.

REDUCE FAT

If your overweight is due to over eating and you want to get rid of that ugly fat, get a diet called "REDUCE". Available without a doctor's prescription. "REDUCE" will help you lose those extra pounds by stimulating your desire for food, not by starving you. But by slowly eliminating the urge for extra portions. "REDUCE" costs only \$9.95 and is guaranteed to work or your money back. "REDUCE" is available at Rosserman's Pharmacy—Bethel. Mail Orders Filled.

DANIEL G. BROWN

Isabel Grover Brown died Sunday (Jan. 9, 1966) in a St. Petersburg, Fla., nursing home where she had been a patient for some time.

He was born at Newry, March 19, 1903, son of John S. and Paulina Stowe Brown. After going to the South Paris area as a child with his parents, he attended the Paris schools and the University of Maine.

He had taught schools in the Philippines Islands and Puerto Rico. He was also employed by the American Tobacco Co. in China, and by the Shell Oil Co. in Venezuela.

Prior to his retirement in 1951, he was employed by the Maine State Liquor Commission. He is survived by two nieces, both of Massachusetts.

Funeral services were held Wednesday in a St. Petersburg funeral home with burial in Riverside Cemetery, South Paris, in the spring.

W. S. C. S.

Twelve members and one guest were present at the WSCS meeting at Mrs. Robert Gordon's, Tyler Street, last Thursday afternoon.

Mrs. Verna Dyke presented the program; the program was "The New Year and Human Rights." Mrs. Alfred Brown and Mrs. Leona Flint will be co-hostesses for the next meeting, Jan. 29, at Mrs. Brown's.

Mrs. Phyllis Doel will have the program. She expects to talk about some school problems of interest to all.

There were no objections to the mining operation, since there will be no discharge into any public waterway.

The DED commissioner said the conditions in the Brooksville area are ideal for Colloban's proposal.

This would be one of the cleanest operations yet proposed for the state, he said, "since there would be no need to discharge mining wastes outside of the area. After the operation is completed, the dam prohibiting the flow of water into the pond will be removed and the pond will be returned to its original state."

Barthman cited the proposed operation as a prime example of multiple resource use. It would allow the removal of the valuable ore, establish a waterfowl management area, and there would be no pollution of public waters or fishing grounds.

The commissioner said the proposed mining operation in Brooksville is another result of years of work conducted by his department's geological survey division. Several other major mineral deposits in Maine are being mined or for which mining operations have been proposed—were originally revealed through the division's geological mapping program.

COMMITTEE OF "106"

DISCUSSES LAYOUT OF PROPOSED BETHEL SCHOOL.

The Educational Advisory Committee of 106 members expressed few suggestions for changes in the physical plan of the proposed six-year high school when they met Wednesday evening, January 5.

Interest was shown in the location of the boiler plant—provided the final recommendation includes a type of heating that requires one.

Leslie Bickford, chairman of the building committee, explained that the location—under or area designated for girls' lockers—fulfills regulations since it has no access except from the outside, and there would be a reinforced concrete floor over the boiler room. No form of heating is to be decided upon until the building committee has had a chance to compare all types.

It is planned to have the S.A.D. 44 teachers visit Buckport High School, which is electrically heated, Saturday, Jan. 15.

The committee has had meetings with local water company representatives with regard to supply costs for a sprinkler system.

There were inquiries about the location of the district superintendent's office on a corner of the gymnasium-shop wing—farthest removed from other administrative offices. Mr. Bickford pointed out that the building will have its own administrator, while the superintendent has responsibility for, and should be accessible to, all schools and persons, concerned with education, in the district.

The offices are included in this building for economy over the expected life of the building—the district presently rents office space—and because the basement area adjacent to the offices and under the shop area, is planned to be a central supply storage for the district. Its management would be under the superintendent's staff. Directors feel it should provide greater economy in purchase of supplies, as well as being more efficient to inventory.

The building committee chairman pointed out the reduction in corridor space and travel time between areas as compared to earlier sketches.

Looking down on the floor plan, the building appears to have three wings from either side of this central corridor, in addition to functional rooms on either side of its intervals between wings.

To the left, entering via the auditorium—gymnasium foyer, is the gymnasium area with bleachers, seating capacity of 1,000. The shop, accessible by a corridor beyond the gym, is behind the gym from the road. To the right of the entrance, and sharing ticket facilities, is the 750 seat auditorium.

The middle wings are, on the left, the junior high class rooms, and on the right, the cafeteria-library wing with a front entrance for community use of the latter wing.

The southerly wings include, to the left, a two story high school section with laboratories on the first floor. The main entrance, and administration and special services offices are a one-story unit on the right.

According to these plans, the corridor level will be lowered at intervals by means of ramps to conform to the contour of the site.

After a review of the 1965 budget, district chairman, Dexter M. Stowell, confirmed details on the financial picture on the new building, as reported at district directors' meeting on Jan. 3.
